

# The Long Hauler™

Volume II Issue 4  
October - December 2001

The Latest News from J&J Truck Bodies & Trailers®  
A Division of Somerset Welding & Steel, Inc.

## Orders increase for push out trailers and light weight crossmemberless steel dump bodies

Push out trailers (available in aluminum or steel) are ideal for use in sludge hauling and similar material hauling applications. They eject horizontally and are equipped with an ejector ram cylinder sized to completely unload the trailer. Because of their size and stability, these trailers allow owners and operators to haul maximum payload with less chance of rollover.

Lighter weight crossmemberless steel dump bodies are becoming an increasingly favorite choice for operators looking to haul more payload in a lighter weight truck. The dump truck body features HARDOX® steel and newly designed formed bottom rails.

### Randall's trucking website introduces new name, new look, and new features

Randall Publishing Co.'s "everything trucking" information and service website now has a new name, look, and features. According to Randall, eTrucker.com's additional services reinforce the site's reputation as the leading information source for the trucking industry on the web. "The new site is a win-win situation for both advertisers and users," explains Randy Schwartzenburg, eTrucker's general manager and publisher. eTrucker.com provides superior services, programs, news, and information for the entire trucking community. Randall currently publishes *Overdrive*, *Truckers News*, and the newly merged *Trucking Co./Commercial Carrier Journal*.

## Custom Flat Beds Built to Suit Customer Needs

J&J Truck Equipment, another division of Somerset Welding & Steel, recently designed and built this flat bed for a pipeline company in West Virginia. The company will use it to haul tools, tanks, and pipes. For more information on custom built truck equipment, call 800-262-6578.

### NTEA Renames Truck Show

The National Truck Equipment Association has changed the name of its annual industry show to the Work Truck Show. The 2002 event will be held March 6-8, 2002 in conjunction with the NTEA's annual convention in Orlando, Florida.

### NEW TRUCKS FOR PHILADELPHIA

The City of Philadelphia will be using this truck to remove snow from Philadelphia's roadways. It will be outfitted with a snow plow and wing plow combination allowing it to clear snow from a lane and a half. Used in tandem with another truck like it, 3 lanes of traffic can be cleared at one time.

The **J&J** dump body is mounted on a Freightliner chassis.

## J&J Demo Units Priced to Sell

10 foot aluminum dump body on a 2000 Ford F750.

11 foot aluminum crossmemberless dump body on a 2001 International 4900.

**For complete specs and pricing, call Ron Wright. 800-777-2671.**

## DYNA HAULER® /FLT Dump Trailer

*Custom designed to meet weight laws in Florida*

This 22 foot aluminum body with 54 inch sides and 60 inch ends is mounted on a 28 foot steel frame. It allows owners and operators to safely haul maximum payload throughout the State of Florida.

If you're interested in more information on our Florida trailers or other truck equipment, call Ed Gemberling, our Southeastern rep, at 910-579-2905.
