The Latest News from J&J Truck Bodies & Trailers®
A Division of Somerset Welding & Steel, Inc.

J&J plant completes second full year of production

J&J Truck Bodies & Trailers' dump body plant has reached its second full year of production. In addition to this plant, the company also has another adjacent facility where dump and transfer trailers are manufactured. With over 260,000 square feet of manufacturing space and state-of-the-art equipment, J&J customers can rely on quality products and on-time delivery.

UPDATE

Customers responded enthusiastically to the announcement of J&J's new Quick Turn Program. The program guarantees a 15 working day turnaround on certain model dump truck bodies. Several dozen orders were placed and as the program goes into full swing, the company expects the Quick Turn manufacturing line to be at complete capacity. Certain limitations apply, so dealers and owner/operators are encouraged to place orders as soon as possible. Please contact your J&J sales representative or call 800.777.2671 and ask for Randy Scott, the program's coordinator.

J&J dump trailers are versatile, rugged, and come with many standard features. Whether you haul rock, construction materials, demolition debris, salt, or asphalt, we can build you a customized solution to meet most any hauling application. We also manufacture transfer trailers for waste and mulch hauling applications.

Built for the long haul.™

This limited edition RD Mack is mounted with a J&J lightweight crossmemberless steel body.

Sterling Updates Web Site

Sterling Truck Corporation recently unveiled an enhanced Web site at www.SterlingTrucks.com. The new site offers a completely new look and feel, easier navigation, a handy search function, updated information, revised dealer information and many additional features. Sterling has also made it even easier to find the perfect truck, allowing customers to search by Sterling model or work application.

Tri-State Kenworth in Connecticut Named 2003 Kenworth Dealer of Year

A Kenworth T800, mounted with a J&J steel dump body, gets ready to head for J&J's booth at the Mid America Truck Show.

Tri-State Kenworth of Enfield, Conn. was named 2003 Kenworth Dealer of the Year for the United States and Canada during the annual Kenworth Dealer Meeting in Phoenix, AZ. Kenworth's lineup of medium and heavy duty trucks, supported by active customer service, is the formula for success used by Tri-State Kenworth of Enfield, Conn. "We're pleased to win this prestigious honor as Kenworth's top dealer, among all of the outstanding Kenworth dealerships in the U.S. and Canada," said Scott Pagliughi, president and owner of Tri-State Kenworth.

The Kenworth Dealer of the Year award recognizes the top-performing Kenworth dealership that has excelled in many areas, including customer service and support after-the-sale. The award is based on Kenworth's Dealer Excellence Standards and Kenworth's Annual Customer Satisfaction Survey.

MACK Trucks Retires the RD Series

At the end of last year and after 40 years of service, the RD Model was retired from the trucking industry. To celebrate the end of the RD era, Mack is offering the RD Legend Package (pictured above). This special edition combination gives dealers and customers an opportunity to order either an RD truck or tractor chassis spec'd out with limited edition paint, badges, chrome, and driver amenities.

NEW TRUCK FOR LANDSCAPE MATERIALS SUPPLIER

J&J's medium-duty dump bodies are an ideal solution for anyone involved in landscaping, road maintenance, and other similar applications. This particular truck body was ordered by a landscape materials supplier located in Plum Boro, PA. The polished aluminum body is installed on a Peterbilt 330 and is outfitted with tool boxes, additional light modules, step and ladder, and shovel brackets. The truck has been shown at several trade shows, including the recently held Mid America Truck Show in Louisville.

J&J Participates in Ride & Drive Event

Every year, International Truck & Engine Corp. invites fleet owners to drive heavy, medium, and severe service vehicles at their exclusive "Ride & Drive" events. This International 5600i, mounted with a J&J aluminum dump body, was one of the trucks at the event last fall where fleet owners were given the opportunity to drive and test it out in simulated, real-world applications.

New Municipal Distributor Added in New York

Valley Fab and Equipment, Boston, NY, was recently appointed as an authorized distributor of J&J Truck Bodies & Trailers. In this capacity, they will supply customers in western New York with J&J's complete line of municipal equipment.

Valley Fab and Equipment has been providing its services to municipalities, contractors, and private individuals for over 30 years. Ron Wright, J&J Municipal Sales Manager, stated, "With a state as large as New York, we felt it was important to add an experienced and well-respected distributor like Valley Fab to our distributor network. We look forward to working with them in a joint effort to better serve our customers in that region."

For more information on Valley Fab and Equipment, contact Rich Emerling, by email remerling@valleyfabandequipment.com or by phone 716.941.6644.

Aluminum Push Out Trailers are ideal for use in sludge hauling and similar hauling applications.

Our aluminum push out trailers eject horizontally and are uniquely designed to safely haul and discharge sludge and other like materials.

Because of their size and stability, our trailers allow owners and operators to haul maximum payload with less chance of rollover.

They're constructed with top grade materials and come with many standard features and

a wide variety of popular options.

Ejector ram cylinder sized to completely unload trailer. Self-adjusting UHMW wipers on sides and bottom.
