MH EVO...New Smooth Side Dump Truck Body

Smooth side dump truck bodies are an excellent solution if you're hauling aggregates like asphalt, sand, stone, gravel or coal. The reinforced interlocking double wall panels provide insulation for materials like asphalt. In addition, the interior wall is designed to absorb impact, while the outside of the dump body remains in good condition, making pings and dents a thing of the past. This feature keeps these dump bodies looking great and increases their resale value.

The new J&J EVO truck was shown in J&J Truck Bodies & Trailers' booth at the recent Mascon Show in Boston, MA.

Mark Brimley (right) of Brimley Construction, purchased this Peterbilt[®] truck and had it mounted with a smooth side J&J dump body. Pictured also is Charlie Grandll, J&J's northeast Regional Sales Manager.

Polished aluminum smooth side dump bodies are aerodynamic, fuel efficient and will withstand many years of hard use while still looking great.

Wide Selection of NEW In-Stock Trailers Available

Built for the long haul.[®]

DYNA HAULER/MDC

Smaller Trucks that Pack a Powerful Punch

Medium-duty J&J steel dump bodies are versatile and suited for many applications, from hauling to road maintenance to construction work. These dump bodies are a favorite with government agencies, contractors and landscaping companies who need a year round workhorse. Couple these dump bodies with a powerful vocational chassis like an International[®] 7400 (pictured here in blue) or a Freightliner[®] M2, (pictured here in red) and you have a perfect solution to many hauling and road clearing applications. Medium-duty dump bodies are also available in aluminum or stainless steel.

The high-lift tailgate door on this HCX model dump body is an excellent solution if you haul large debris, rock or boulders.

Polished aluminum comes standard on all MH EVO smooth side dump bodies.

DYNA HAULER/FTA

This aluminum body, aluminum frame J&J dump trailer went to a distributor in Wisconsin. It is 34 feet in length, has a 50 cubic yard capacity, is 96 inches wide and 66 inches high. The inside features a stainless steel liner and the outside is outfitted with lights at the bottom of each post on both sides. This type of trailer is built to handle a variety of demanding hauling applications.

PA Township Orders New Truck

U.S. Municipal Supply, King of Prussia, PA, an authorized distributor for J&J Truck Bodies & Trailers, ordered this material hauler for an International[®] 7600 chassis. A local government agency will use it for road maintenance, construction and similar applications. The HARDOX[®] steel body is 17 Ω feet in length and features 54 inch post style sides with dirt shedders.

Ultra Light Joins Quick Turn Program

The popular J&J ultra light steel dump body has joined the Quick Turn Program. This allows our customers the option of utilizing this program where dump truck bodies can be turned around within 15 business days. Certain restrictions apply, so check with your J&J sales representative or call 800.777.2671 and ask for dump body sales for more information.

New Trucks for Lancaster Development

Lancaster Development, a construction firm that specializes in building roads and bridges for the state of New York, ordered 8 of these J&J dump truck bodies. The 19 Ω foot aluminum bodies are mounted on Mack[®] CV-713s trucks.

Meet our inside sales staff. Rely on them for accurate and fast quotes, customer service and more.

LARRY FAIDLEY † Dump Body Sales

The most senior member of our inside sales staff is Larry. With nearly 30 years of experience at J&J, he is an expert on quoting dump truck bodies and providing J&J customers with detailed quotes and information.

MARK McCLINTOCK † Trailer Sales

Mark has been with J&J Truck Bodies & Trailers for 22 years. His responsibilities include providing J&J customers and the outside sales staff with timely and accurate quotes for dump and transfer trailers.

SARA OHLER † Dump Body Sales

Sara has been with J&J for 11 years and recently moved into the position of inside sales for dump bodies where she is responsible for providing quotes. Prior to this, she was the J&J Warranty Manager.
